DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/9/2009 has been entered.

Response to Amendment

2. The affidavit of inventor Andoh under 37 CFR 1.132 filed 11/9/2009 is sufficient to overcome the rejection of claim 1 based upon Andoh (WO 00/62888) and in view of Smisson (US 5,116,516).

In the affidavit, inventor Andoh presents arguments along with cited evidentiary reference of which US 4451366 is the US patent equivalent to and will be cited by the Examiner. The affidavit states that the WO reference does not disclose a closing of the bottom end of an inner separation region by the reference to a solid cone (9) at P12/L15-25 but rather, the mention of solid is equivalent to the cone described in the GB document referred to as well as Smisson '238 which does not close off a flow path but rather has a channel through the center of it. The argument of Andoh in the affidavit was found to be convincing and the rejection is hereby withdrawn.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

Art Unit: 1797

by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas Jackson on 11/30/2009.

The application has been amended as follows:

In claim 10 replace the phrase "as claimed in claim 9" with --as claimed in claim 1--

In claim 12 replace the phrase "as claimed in claim 9" with --as claimed in claim 1--

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the combination of an inner and outer separation region with the inner separation region closed off at a lower end in conjunction with a central cylindrical partition within the inner separation region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DAVID C. MELLON whose telephone number is
